

## **Interview Endorsements for John M. Simmons**

“What a remarkable man! His is an incredible story. Our time today was so wonderful that we taped 2 shows - one for this week and a second one for next Sunday. Thank you again for your patience and persistence. It was an honor and a pleasure to talk to John.”

*Condace Pressley  
CXR - Atlanta*

“It doesn't take much to be a father - but it DOES take a lot to be a Daddy! John Simmons knows the importance of this difference so much so that he lists "Papa" on his business card as one of his important jobs in life. What a wonderful conversation I had with John. We covered all aspects of adoption, from the difficulties of international adoptions, adopting special needs children, and adopting teens. He can speak from experience on all levels and make it simple enough that even I could understand. You'll find John to be warm and informative - simply a joy to talk too! If you have the time to do this interview - schedule it now! If you don't have the time - make the time and schedule it now!”

KXEN St Louis*

“John Simmons is a born daddy and a true gem! I think any parent can relate to his experiences and feelings on some level. Parenthood is a gift, and no one realizes that more than John after his experiences adopting some amazing children from a Russian orphanage. John wanted to teach them, nurture them, and to make them better people, but John will argue he was the one who learned the most about himself and what's most important in life. Do not miss the opportunity to interview John Simmons, you and your listeners will be moved by his generosity and compassion.”

*Jill Atwood
